

Pollution

Color the drawings that contribute to increasing pollution levels on our planet

Can you imagine a world dominated by pollution? Write a short story describing what a day in your life would be like if that were the case. Use your imagination: masks, special clothing, protocols, rules...

Circle the actions that help to reduce the pollution of our planet:

Using public transport

Using old cars that emit a lot of CO₂

Using reusable fabric bags when shopping

Using renewable energies

Putting batteries in the right garbage container

Recycling correctly at home

Putting disposable wipes down the toilet

Reducing consumption of non-essentials
